

January 2007

Dear Valued Customer:

Thank you for your interest and support of 21st Century vitamins and supplements. 21st Century sources high quality raw materials from all over the world; however, our products are manufactured in the United States.

To safeguard your health and well being, we operate under strict **Current Good Manufacturing Practices** (cGMP) guidelines and manufacture our products to **United States Pharmacopeia** (USP) standards in a state-of-the-art FDA approved facility. Our Quality Control and Quality Assurance programs are internally and independently audited to ensure top quality products and that our performance measures are continually met. Our products are subject to testing before, during and after manufacture, including analysis by **High Performance Liquid Chromatography** (HPLC), a precise testing instrument which can find very minute amounts of contaminants.

Please be assured the health, safety and confidence of our customers is of great importance to us.

Respectfully,
Customer Service
